

**26 September 2011**

**REFERENCE:** Mihajlo Kecic

**Service contracted for WBA:** Website Re-design and development - 2011

To Whom It May Concern:

Mihajlo (Milo) was contracted in 2011 to re-design and develop the new Wellington Basketball Association Website.

The high level requirements for this role was to design a website that was able to integrate with social network media, Facebook, Twitter, Youtube and others and to improve the navigation capability and aesthetics from our old website.

The backend requirements were for the website to utilise Google analytics for reporting and monitoring purposes and to allow someone with relatively little technical knowledge the ability to control and maintain the site.

Milo was successful in meeting all of our requirements in terms of development and design of our new website.

The service Milo provided was professional and performed within the agreed timelines. Milo provided excellent customer service when dealing directly with ourselves in answering any questions we had or in performing any add-on requirements.

Milo listened intently and delivered what we required of him to deliver. During the scoping process and post development process Milo was of great value in providing advice and then following whatever our decisions were as his contractor.

Milo displayed professionalism in the tasks performed for the WBA, excellent communication skills in explaining to lay-people what was being designed, implemented and supported.

I would not hesitate to recommend Mihajlo Kecic for a website developer role, or any role of a similar nature.

Regards

Mihajlo Kecic Reference Letter

July 2011

To whom it may concern;

Mihajlo Kecic aka Milo is a very good worker who has the ability to listen and adapt to the environment. Milo was employed to develop our website ([www.iluvnz.co.nz](http://www.iluvnz.co.nz)) and help develop concepts for our 340,000 plus Facebook presence.

Milo was critical to the success of our project and when there were new areas that the team lacked capability e.g. Facebook integration Milo would put his hand up and simply get stuck into figuring out what needed to be done.

Milo is intelligent with a good awareness of markets needs and trends. We found that he integrated seamlessly into the team and was willing to do whatever it took to hit deadlines.

Milo is proactive as well. There was an occasion that we needed to work through the weekend to hit our deadline and without asking him to come in over the weekend he just volunteered. Milo is a real team player and somebody we would certainly hire again.

Milo is considerate, respectful and flexible and most of a delight to work with.

If you have any questions or want to discuss his tenure with me feel free to give me a call. Milo has my number.

Regards

Steve Graham

## LETTER OF REFERENCE

To whom it may concern,

I write regarding my experience employing Mihajlo Kecic (Milo).

Over three weeks in April 2010 I employed Milo to carry out design work for a project at Victoria University of Wellington.

Milo was employed to carry out the design of a new product. Although the project had a short time frame and ambitious targets Milo worked very well and immediately engaged in the task set before him.

Milo performed his duties well over the total time of the engagement with only a small amount of supervision required.

I found Milo to be knowledgeable and enthusiastic. Milo was also very willing to share ideas and partake in not only his area of expertise of design but also other areas of marketing and general product development.

Milo has a very high skill level in software and was quickly able to develop ideas and concepts into three dimensional models. I found this speed of development very useful and Milo quickly picked up ideas and interpreted them into design.

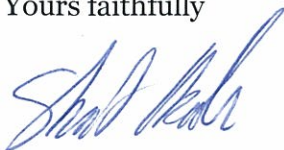

Milo played the leading role in the development of a concept website. Milo suggested a number of ideas and themes and generated content and very professional concept designs.

Milo also played a significant part in the development of Logos and "colour schemes" to benefit the project.

Milo used his own computer and software to model and design the website concepts and marketing material requested from him.

I would be happy to recommend Milo for a role and would be happy to discuss my experience of his abilities and skills with any potential employer.

Yours faithfully

Stuart Haselden

To whom it may concern,

I have worked with Mihajlo on several occasions as he has built us several websites.

From the point of engagement it is clear that Mihajlo is committed to what he does, his skills are exceptional in both design, coding, and he continued to surprise me with his wealth of knowledge about the industry.

I am currently running my business in Wellington, New Zealand Mihajlo has on several occasions put himself out to help with my website problems and i will forever be grateful for what he has done.

I have no hesitation in recommending Mihajlo for any position that he sees fit, he will commit 100% and more to doing a good job.

Please feel free to contact me if you have any further questions.

**To Whom It May Concern**

In the second semester of 2005, Mihajlo Kecic worked as the leader of a four member team with UpTime Games as the project client. The project deliverable was a Staff Training CD-Rom.

I was very pleased with Mihajlo's attitude towards this project. He demonstrated strong leadership, coordinated the team well, and interacted professionally with us as the client. He appears to be a hard working student. We were very pleased with the final deliverables that he and his group produced.

I wish him every success in his further studies.

Yours sincerely
